

A message from our Principal - SIMON ANDERSON

WAKAKIRRI

We made it to the final! The children will now perform at Hamer Hall in the city on September 18th. Congratulations to everyone involved!

FATHERS DAY STALL

We hope everyone had a wonderful Father's Day. A huge thank you to the Parents & Friends for supplying such wonderful gifts for the children to purchase. Below are some photos from the stall.

CAR PARKING

Please don't forget that there is no parking in Peryman Street! Please respect our local community by parking at the oval. Also remember that the pick up area is just for that—please do not get out of your car and leave to pick up children—this is parking for a maximum of 2 minutes. Beyond that, please drive around and park so you can locate your child, enabling the quick pickup area to continue to flow.

BOOK PARADE

On Friday we celebrated books and literacy with our wonderful Book Parade.

Here's a few happy snaps from the day. Thanks Literacy Team for organising this and thanks parents for supporting your children with wonderful costumes!

Our mission is to enrich and equip all students with knowledge, skills and strategies that empower them to be active life-long learners, productive community members and global citizens.

P.E NEWS

In PE this week we have wrapped up our Cricket Victoria clinics. All the students that participated enjoyed the clinics as they developed the Fundamental Movement Skills necessary to play Cricket. It may be time to mow the backyard Cricket pitch and get them all to strut their stuff. Well done to all the students that participated.

The AFL clinic will continue until the last week of the term, with the students learning how to Handball and perform a Drop Punt. There have been some great skills on show and it has been a chance to learn from Tiara, a local player in the newly formed VFL Woman's league.

Also, a reminder to all students and parents that the District Athletics Carnival will take place next Wednesday, the 13th at Ballam Park. The students have been training hard in the lead up to the event and are all extremely excited.

Have a great week.

The Grief Lecture

A free community event

australian centre
for grief and
bereavement

Grief Lecture 2017: Love, Life, Loss.

Type: Annual Grief Lecture

Location: Village Roadshow Theatrette, State Library of Victoria, Melbourne.

Presenter: Gail O'Brien

As the wife of Professor Chris O'Brien (AO), [Gail O'Brien](#) has played an instrumental role in supporting her husband's vision for Australia to have its own world-class, fully integrated and comprehensive cancer care facility. Gail was by Chris' side from when he was initially diagnosed with brain cancer, until he died in 2009. It was soon after this time, she accepted a position as board member of the [Chris O'Brien Lifehouse](#). Lifehouse is an integrated and focused centre of excellence, offering everything a cancer patient needs in one place, including advanced onco-surgery, chemotherapy, radiation therapy, clinical trials, research, education, complementary therapies and psychosocial support.

Since that time, Gail has used her own experience and insights to address a wide range of corporate, industry and special interest groups about the new hope that lies ahead for the thousands of Australians each year who receive the news they have cancer. Gail has a strong background in health. In addition to her role with Chris O'Brien Lifehouse, Gail is also a practicing physiotherapist, working within the hospital sector in the area of orthopaedic rehabilitation. Gail originally trained as a physiotherapist at the NSW College of Paramedical Studies and was initially appointed to Royal Prince Alfred Hospital as a physiotherapy resident in 1976.

It was during this time she first met and then married Chris and in 1980 they travelled to the United Kingdom and United States to further his training in head and neck surgery. Upon returning to Australia, Gail went on to manage Chris' busy practice from 1987 until 2006. During this time, Gail also helped Chris launch the Sydney Head and Neck Cancer Institute based at RPA, managing events and raising funds for their basic and clinical research programs on head and neck cancer. This work has continued in line with her involvement with Lifehouse. Having been born into a medical family and working within the health sector during her career, Gail has always been fascinated by the world of medicine and what it can offer, particularly in the area of cancer care and treatment.

Her first-hand experience, knowledge, passion and understanding are invaluable to her continuing role with Chris O'Brien Lifehouse.
